RESULTS ACHIEVED

UNDERSTAND YOUR

Physioactive was established in 1988 by Darrin Neumann and Anne Mitchell. Many highly qualified and credentialed physiotherapists have joined the practice. We relocated to 8 Roderick Street in 1999. This beautiful old building has been purposely renovated as a modern physiotherapy facility.

While private patients do not require medical referral, Physioactive has excellent relationships with the medical community doctors in Ipswich and we are delighted if you come referred by your doctor or specialist.

A number of our physiotherapists have completed postgraduate training in sports and musculoskeletal physiotherapy. Others have developed expertise in specific areas of physiotherapy through training and experience. All professional staff participate in external and internal training programmes regularly.

Private patients are encouraged to pay at the time of consultation to maximise discount by using HICAPS and eftpos facilities.

The **Department of Veterans Affairs** is directly billed for services provided to veterans and entitled spouses. Doctor's referral necessary.

Workers Compensation patients are able to direct their account to the insurer provided they have a compensable injury and all details and certificates are forthcoming.

Motor Vehicle Accident victims may be entitled to treatment under an approved plan. A doctor's referral and contact with the insurance company can start this process.

Medical Plus patients are welcome with appropriate doctor's referral. You receive a rebate on presentation of receipt to Medicare.
